

Floor Clamp Kit

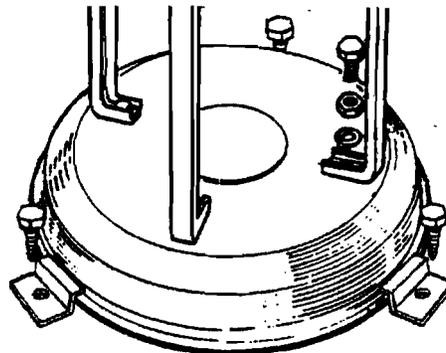

The purpose of the Floor Clamp Kit (Part Number 27020) is to provide supplementary safety and stability for our portable patio heaters. Please review the following steps.

1. Always place the heater on a level and stable floor or dock surface.
2. When using the Floor Clamp Kit always place clamps at equal distance around the circular base as shown.
3. Use appropriate anchors for concrete floors or wood deck.
4. Tighten clamps securely to edge of the base using the lag bolts provided.
